EXPERIENCE

Arka Infotech Software Solutions

Nov '25 — Present

Software Developer

Ghatkopar, Mumbai

Backend-focused developer with hands-on experience building and shipping production-grade web applications using **Next.js**, **React**, and **Node.js** — with a strong focus on SSR, SSG, SEO performance, and scalable **RESTful API** design backed by **MongoDB** (data modeling, indexing, query optimization). Architected end-to-end multi-tier systems covering client interfaces, admin dashboards, and backend services with role-based access control, while owning the full SDLC from system design through deployment. Experienced in integrating web backends with **Godot** for multiplayer and data-driven game features. Proficient with modern AI-assisted development tools including **Cursor** and **Claude**, alongside **Android Studio** and **Git** — enabling faster, higher-quality output across every stage of the development lifecycle.

EDUCATION

Master in Information Technology, Thakur College of Science and Commerce

Present

Bachelor in Information Technology, Lords Universal College (GPA: 8.90)

Jul '23

Highschool diploma in Higher Secondary School Certificate, Nirmala Memorial Foundation College of Commerce & Science (GPA: 7.37)

Feb '20

CERTIFICATIONS

Introduction to Model Context Protocol, Anthropic Education

May '26

Python 101 for Data Science, IBM

Jun '25

PROJECTS

Deepfake Detection Using Deep Learning (ResNext + LSTM)

- Built a video deepfake detection system using transfer learning with pretrained ResNext CNN and LSTM, achieving up to 93.58% classification accuracy on a 6,000-video dataset by optimizing frame sampling (10–100 frames) for superior temporal pattern analysis.

E-commerce Shopping Website

- created a comprehensive e-commerce platform that includes payment processing, product cataloging, and user authentication. Improved user experience via API integration and responsive design. Utilized technologies include HTML, CSS, JavaScript, Django, Python, Bootstrap, and SQLite

SKILLS

Languages: Python, SQL, HTML, CSS, JavaScript

Tools: Cursor, Claude, MongoDB compass, Android Studio, Godot, Github

Framework Next.js, Express
